

#### THE MAIN CYCLES

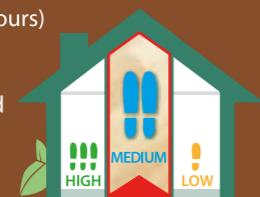

##### CYCLE 1 – HIGH TRAFFIC

- 2x W880XX 2K (without sanding – within 3-6 hours)
- Sanding
- 1x W880XX 2K
- Cycle compliant with the UNI 11622-1 standard Appendix D achieved class: High
- Cycle suitable for high frequency wood flooring (Gyms, discotheques, public places etc.)

##### CYCLE 2 – MEDIUM TRAFFIC

- 2x W980XX 2K (without sanding – within 3-6 hours)
- Sanding
- 1x W980XX 2K
- Cycle compliant with the UNI 11622-1 standard Appendix D achieved class: Medium

#### OTHER CYCLES

- It is possible to use the above-mentioned products in the one-pack version or in combination with one of the primers of our Parquet line
- Before executing any not certified cycle, we recommend you consult our technical laboratory

**UV PROTECTION**

It is a full range of professional products, from dyes to finishing, which ensures top level performances for any use: from home places, where the aesthetical effect prevails, to sport halls and public places (as high traffic) where large usable net areas, hardness and elasticity are essential.

- CATAS certified performances
- Full range (from dyes to finishing)
- Non-slip performance and UV protection thanks to our specific auxiliary products
- Low opacity effect
- Excellent aesthetical result

|                  |                 |
|------------------|-----------------|
| PALE BLUE 6135 L | GREY 6140 L     |
| GREEN 6136 L     | CHESTNUT 6141 L |
| PURPLE 6137 L    | ROSEWOOD 6142 L |
| OAK 6138 L       | WALNUT 6143 L   |
| WALNUT 6139 L    | TEAK 5299 E     |

|              |               |
|--------------|---------------|
| NEUTRAL      | YELLOW 6132 L |
| WHITE 6130 L | RED 6133 L    |
| BLACK 6131 L | ORANGE 6134 L |

| DYES  |                                     |   |
|---|-------------------------------------|---|
| C510N   | COLOROIL NEUTRO                     | Transparent oily based vehicle for the formulation of hydro dyes.<br>It is possible to paint it using our series R900 – PC Idro Serie or C850 – Col. CMI Serie.   |
| C510XX  | COLOROIL VARI COLORI                | Oily based water-soluble dyes ready to be used to paint the wood flooring.<br>Available in 15 different colours applicable as wipe on, using a brush, a roller and with an oil-spreaders or with a short pile paint roller; use a single brush floor machine, remove the excess with a cloth. |
| PRIMERS   |                                     |   |
| W890  | IDROFOND PARQUET TX                 | One and two pack water-soluble acrylic primer with a high solid content and a quick drying.   |
| W870  | IDROFOND PARQUET TONALIZZANTE       | One pack water-soluble primer enhancing treatment for wood flooring, suitable when you want to obtain an effect like the cycle with a solvent based painting.   |
| FINISH PRIMERS  |                                     |   |
| W980XX  | IDROMAT 150                         | One and two pack acrylic-based water-soluble finish primer water transparent with an extreme elasticity, hardness, and abrasive resistance.<br>It is possible to apply this product as finish with W890 and W870 primers.<br>Available with an opacity between 10 and 70 gloss.               |
| W880XX  | IDROMAT 350                         | One or two pack water-soluble base polyurethane finish primer with extreme resistances, suitable for places with remarkable stresses and with a high foot traffic.<br>Available with an opacity between 10 and 70 gloss.  |
| Both these products are available in the NATURE version with 3 gloss, and it is possible to catalyse up to 5% with W410 AQUALINK to improve their resistances (Pot life > 24H); suitable for automatic system, too. |                                     |   |
| AUXILIARY ITEMS   |                                     |   |
| RLA0632   | ADDITIVO ININGIALLENTE 632A         | Additive to be added in the proportion of 1-2% whenever it is necessary to increase the wood protection against sun irradiation.  |
| RLE03943  | ANTISLIP                            | Additive to be used if it is necessary to increase the friction in compliance with the safety regulations into force.   |
| PLE05705  | DILUENTE LIVELLANTE IDRO            | Retardant thinner to be used if it is necessary to delay drying and to improve levelling. Add at 5% at the most.  |
| PLE04288  | DILUENTE LAVAGGIO PER PRODOTTI IDRO | Specific thinner to clean working equipment.  |
